the Central Committee is considering increased employment of females in industrial enterprises. The SED, the Demokratischer Frauenbund Deutschlands (DFD), and the FDJ, have been ordered to prepare for an intensified employment of females in industrial enterprises. Even high-ranking SED members will be urged to have their wives and daughters employed in industry. The percentage of females in the administration, in traffic, in community police, in juridical positions and in educational service is to be increased 50 percent, while former skilled laborers of the 35-to-50 age group who are at present employed in those jobs will be released for production work. this measure to be a difficult project which would arouse resentment among all those concerned.
